RE: Completeness Review for P-22-005

Dear Applicant(s):

Thank you for submitting a Land Division application. The first step in the application process is a completeness review. The following items were required to be included in your application or determined prior to the acceptance of the application:

1. The correct and completed application form was filed. If the proposed use/activity will occur in an identified hazard area the correct reports or certifications have been included.
Missing supplemental land division application
2. Applications shall be submitted by the property owner or a purchaser under a recorded land sale contract. "Property owner" means the owner of record, including a contract purchaser. The application shall include the signature of all owners of the property. A legal representative may sign on behalf of an owner upon providing evidence of formal legal authority to sign; (a consent form may be accepted, or exceptions may apply 5.0.175)
3. One original and one exact unbound copy of the application or an electronic copy shall be provided at the time of submittal for all applications; (Staff may be able to create an electronic copy for you)
4. A detailed Project Proposal was provided;
5. A detailed parcel map of the subject property illustrating the size and location of existing and proposed uses, structures and roads on an 8½" x 11" paper to scale. Applicable distances must be noted on the parcel map along with slopes. (See example plot map);
6. Covenants or deed restrictions on the property were provided or were found not to exist.
7. All of the lots or parcels that are currently within the applicant's ownership, co-ownership or is purchasing which have a common boundary with the subject property on an assessment map were listed on the application;
8. A copy of the current deed of record has been provided;
9. All the applicable criteria have been addressed;
**The 20' public easement road, Henry George Road does not meet standards.
Rink Creek Lane is not fully drawn on plat.**
10. The property was created legally;
11. All development was cited in compliance with the Coos County Zoning and Land Development Ordinance or this application will bring a use or activity into compliance; and

12. All road, driveway, access, parking plan or traffic impact analysis has been submitted as required by the Coos County Zoning and Land Development Ordinance.

13. All Land Division tentative plat requirements have been met.

Planning Staff Review

- a. North arrow, scale and date of the drawing.
- b. Appropriate identification clearly stating the map is a tentative plat.
- c. Names and addresses of the landowners, subdivider/partitioner and the engineer, surveyor, land planner or landscape architect responsible for designing.
- d. The tract designation or other description according to the real estate records of Coos County [Township, Range, Section, Tax Lot Number(s), and Assessor's Tax Account Number(s)].
- e. The boundary line (accurate in scale) of the tract to be divided and approximate acreage of the property.
Need to have entire parcel on the tentative plan
- f. Contours with intervals of forty (40) feet or less referred to United States Geological Survey (or mean sea level) datum.
- g. The names of adjacent subdivisions or the names of recorded owners of adjoining parcels of unsubdivided land.
- h. The location, widths, and names of existing or platted streets or other public ways (including easements) within or adjacent to the tract, existing permanent buildings, railroad rights-of-way and other important features such as section lines, political subdivision boundary lines and school district boundaries.
- i. Existing sewers, water mains, culverts, drainage ways or other underground utilities or structures within the tract or immediately adjacent thereto, together with pipe sizes, grades and locations indicated.
Where is the water being provided for the existing dwelling?
- j. Zoning classification of the land and Comprehensive Plan map designation.
- k. Draft of proposed restrictions and covenants affecting the plat.
- l. Predominant natural features such as water courses and their flows, marshes, rock outcropping, and areas subject to flooding, sliding or other natural hazards.
Map needs to show wetland areas and identify the Landslide Hazard.
- m. A current property report (less than 6 months old) indicating any taxes, assessment or other liens against the property, easements, restrictive covenants and rights-of-way, and ownerships of the property of the proposed development. A title report is acceptable.
- n. Lot and parcel sizes shall meet the minimum lot sizes as established by the applicable zoning district. Need further information to determine. See other comments.
- o. Within an Urban Growth Boundary no lot area, yard, offstreet parking and loading area or other open space which is required by this Ordinance for one use shall be used as the required lot area, yard or other open space for another use, such as utility easements, access easements, road and street right-of-ways or septic drain fields. (If an easement is proposed it cannot server to meet acreage requirements for another use). Example, a road it required to be developed that acreage has to be removed from the total acreage.
- p. Outside of the urban growth boundary no lot area, yard, offstreet parking and loading area or other open space which is required by this ordinance for one use shall be used as the required lot area, yard or other open space for another use. This does not include utility easements, private road access easements or septic drainfields; but does

include all public road and street right-of-ways. (In rural areas you are not required to remove any acreage for parking, driveways or roads)

- q. Dimensional Standards. The property will comply with development standards set out in the applicable zoning districts. (Road frontage, lot depth and width Roadmaster in consultation with the Planning Director may waive certain dimensional standards but they will be listed in the development standards)
- r. Proof of an adequate supply of potable water. Water supply systems, both public and private, shall conform to the requirements of state law. Adequate water supply may be accomplished with storage tanks. (The applicant may request to have this waived but must do so in the application and explain why)
Need proof of available water from Rink Creek
- s. Sewage disposal systems, both public and private, shall conform to the requirements of state law. (If a sewage disposal system is proposed as part of the plan there should be a site inspection from DEQ filed with the application but if none is proposed a statement is required to be displayed on the plat, see mapping requirements).
Need proof that the existing septic system meets requirements of state law

Reviewed by the County Roadmaster and Surveyor

- a. Erosion prevention. When necessary to prevent erosion all cuts and fills and other graded areas shall be protected from erosion by appropriate seeding or planting of grass shrubs, trees or other soil stabilizing vegetation. (OR 98-12-009PL) (If there is any natural hazards concerns, steep slope areas over 12% or request from ODOT/County Road Department)
- b. Sidewalks of an all-weather material not less than five (5) feet in width, nor more than eight (8) feet in width shall be constructed as close to the center of pedestrian and bicycle ways as practical, when required. (This will be at the direction of the road department or ODOT)
- c. Panhandle lots or parcels shall be an acceptable method of land division. More than two contiguous panhandles (as opposed to the panhandle “lots” themselves) shall not be permitted. Where two panhandles are contiguous, the County may require easements and construction of an access road. Panhandles are also referred to flag lots. (The may conflict with the minimum road frontage)
- d. The local access road was open to public use on January 1, 1986. Use of the local access road is not restricted by adopted policies of the Comprehensive Plan.
- e.

The local access road is constructed to the private road standard contained in Article VII. However, if the road will, or could in the future, provide service to more than three (3) units of land in an urban unincorporated area or more than ten (10) units of land in a rural residential area, the finished top surface width shall be a minimum of 18 feet and turnouts shall not be required.
- f. If the Approving Authority determines that the existing development pattern, topography, physical characteristics of the land, applicable land use regulations, or other circumstances affecting the area served by the local access road prevent the road from being used to provide access to more than three (3) units of land in an urban unincorporated area or more than ten (10) units of land in a rural residential area, the Approving Authority may allow the local access road to be constructed to the same standards that are required for private roads, pursuant to Article VII.
- g. Additional right-of-way is provided along the frontage of the subject property when such is required to meet the minimum right-of-way requirements for a County road.
- h. The applicant agrees to participate in a private maintenance program for the local access road and executes any documents required by the Approving Authority to insure such participation.

- i. The applicant agrees to participate in any local improvement district which may be formed under ORS 371.605 to 371.660 or the Coos County Local Assessment Ordinance to improve the local access road to County Road standards. The applicant shall execute any documents required by the Approving Authority, including a waiver of remonstrance, to insure such participation.
- j. All interior streets in the subdivision that require dedication shall be built to the County standard such that they may be incorporated into the County road maintenance system.
- k. The subdivision shall be subject to adequate restrictive covenants or other similar device which require interior streets to be maintained by lot owners in accordance with County standards. Such restrictive covenants shall be enforceable by the County.
- l. Any access approval request under this section shall be reviewed to assure that no development occurs in **known natural hazard areas without appropriate safeguards**. The Planning Director or designee may condition its approval of a request on the provision of such safeguards, or otherwise condition approval of such requests to insure compatibility with the objectives of this ordinance, and the Coos County Comprehensive Plan
- m. Private Road Access information is found in Chapter VII (Roads or Streets
- n. Utility Easements. Easements including but not limited to sewers, water mains and electrical lines shall be at least fifteen (15) feet wide, except for utility pole tieback easements which may be reduced to six (6) feet in width.
- o. Pedestrian and Bicycle Ways. When necessary for public convenience, safety or if designated on an adopted County or State recreation or transportation system plan, the County Planning Director will require a developer of a subdivision, PUD, and office park complex to dedicate to the public, public access easements ten (10) feet in width. Said easements may be deemed necessary to provide access
- p. Location, acreage and dimensions of land to be dedicated for public use or reserved in the deeds for the common use of property owners in the proposed land division, together with the purpose of conditions or limitations of such reservations, if any.
- q. Easements, together with their dimensions, purpose and restrictions on use.

This application has been:

- Deemed complete as of the date this letter was sent and the application has been forwarded to all applicable agencies or departments for comment; or
- Deemed incomplete due to missing information as identified by the **unchecked boxes** above. As the applicant for a permit or limited land use it is your responsibility to submit one of the following within 180 days of the original date the application was submitted to the Planning Department:
 - a. All of the missing information;
 - b. Some of the missing information and written notice from the applicant that no other information will be provided; or
 - c. Written notice from the applicant that none of the missing information will be provided.

If the application is found to be incomplete and steps a, b or c are not completed within the required timeframe (180 days), then on the 181st day the application will be deemed void. If you submit material by email you are responsible to follow up with staff to ensure that information was received. On the day the department receives one of the options (a. through c.) above is the date your application will be considered complete.

Once your application has been deemed complete staff will continue with the review process. Your application will go through the following steps (checked steps apply to your application):

1. The first step is requesting comments from any applicable agency or department. Most agencies have 30 days to respond to comments.
2. If this is a land division Technical Review Committee (TRC) will be scheduled once all comments have been received. Once the TRC has been completed a tentative decision is mailed out approximately six (6) weeks after. The notice of tentative decision will provide for a fifteen (15) day opportunity to appeal. If appealed it will be scheduled for hearing. The decision only becomes final after the final partition plat has been filed.
3. If this is application requires a hearing, a notice of hearing will be provided 20 days prior to the hearing. Once the hearing is concluded a notice of decision will be mailed out within five to seven days. If this is a Planning Commission decision the notice will provide for an opportunity to appeal (15) fifteen days to the Board of Commissioners. If this is a Board of Commissioners decision there is a twenty-one (21) day appeal period to the Land Use Board of Appeals.
4. If this is an administrative review (Administrative Conditional Use, Extension, Lawfully Created Parcel Determination or Variance) a notice of decision with an opportunity to appeal will be mailed out once the review has been completed. Approximately, six weeks after the application has been deemed complete. The notice of decision will provide for a fifteen (15) or twelve (12) day opportunity to appeal depending on the type of application. If not appealed the decision becomes final.
5. If this is a limited land use notice then a notice requesting comments will be mailed as soon as the application has been deemed complete and then a review and decision will be issued. Approximately, four weeks after the comments time has expired. The notice of decision will provide for a (12) twelve or fifteen (15) day opportunity to appeal depending on the type of application. If not appealed the decision becomes final.

Except when an applicant requests an extension of the timelines, the governing body of the county or its designee shall take final action on an application for a permit or limited land use decision within 120 (urban zone) days or 150 (rural) days as applicable.

If you have questions about the land use process please contact planning staff for assistance.

Thank you,

Crystal Orr
